

Billboard Lighting

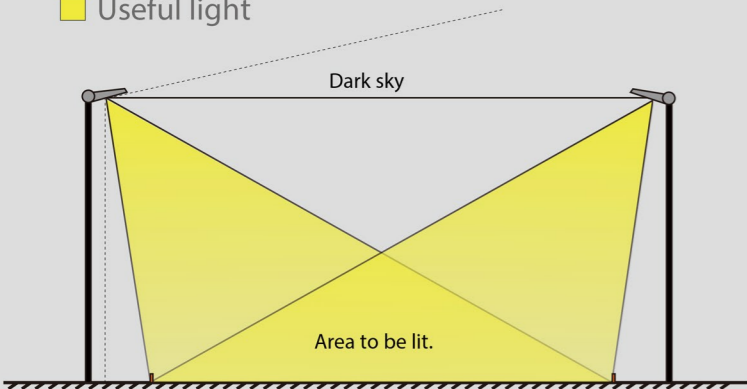

Useful light

Minimizing leakage results in no loss of light, and Venus Series has a specialized design for billboards intended to minimize shadow regions.

Flood Lighting

Useful light

Venus Series LED Floodlight is specially designed for sports fields, minimizing loss of light and light pollution.

ISO9001: 2008

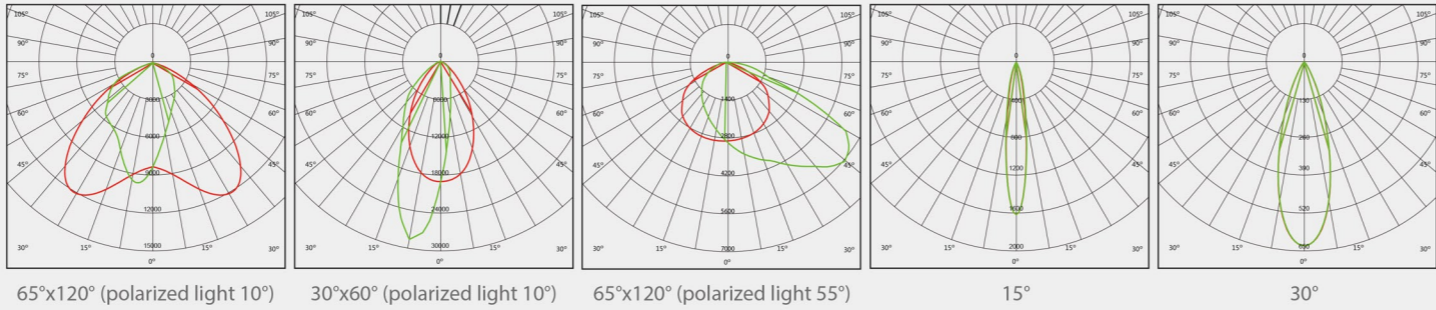

Venus Series Product Range

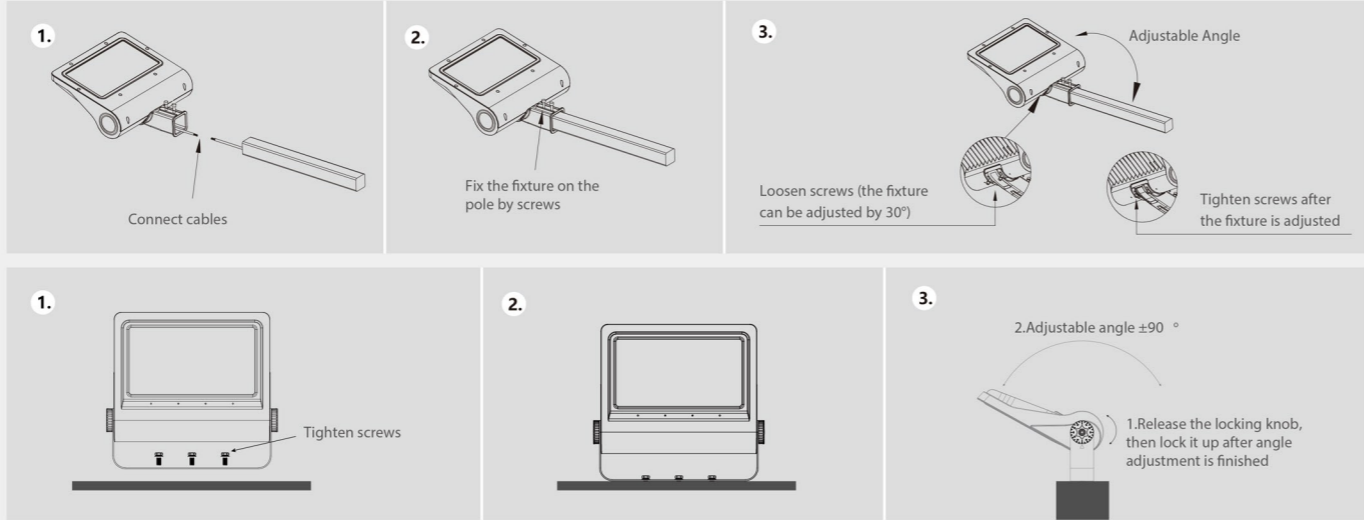

Part Number	VS-FL100	VS-FL150	VS-FL200	VS-FL240
Lumen Output	13,500lm	20,250lm	27,000lm	32,400lm
Wattage	100W	150W	200W	240W
Luminous Efficacy	135lm/W	135lm/W	135lm/W	135lm/W
CCT	3000K, 4000K, 5000K, 6000K			
CRI	>Ra73, >Ra80			
Beam Angle	65°x120° (polarized light 10°), 30°x60° (polarized light 10°), 65°x120° (polarized light 55°), 15°, 30°, 60°, 90°, 120°			
Input Voltage	100-240Vac/100-277Vac 50-60Hz PF ≥0.93			
IP Rating	IP66			
LED Driver	Inventronics			
HID Equivalent	250W-400W	400W-600W	600-800W	800W-1000W
Certification	UL, CE, C-Tick, ROHS

Venus Series

LED Billboard Lighting
& Flood Lighting

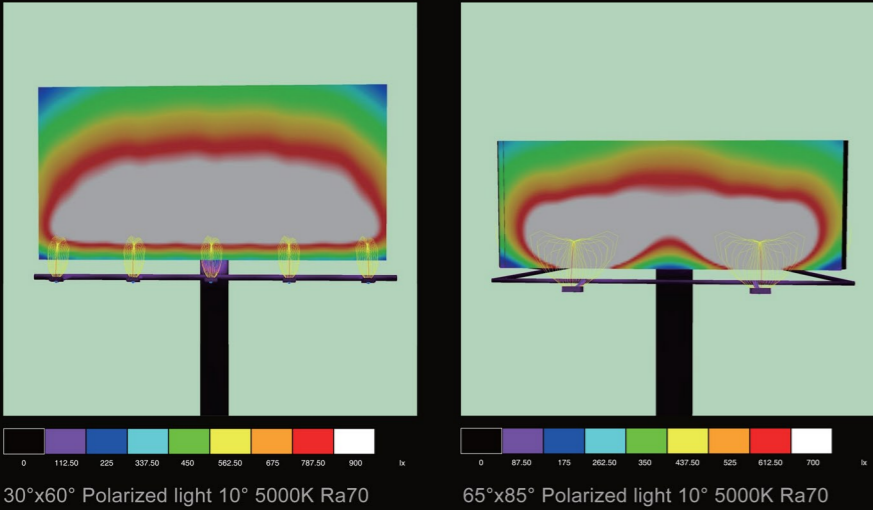

Venus Series, An Excellent Luminaire for Dual Purpose

Efficacy up to 135lm/W

Venus Series aims to provide superb lighting distribution with special-designed lens. It works not only as a floodlight for sport fields, but also as a perfect luminaire for billboard advertising.

Billboard Lighting

Modern Design Housing

Simple, exquisite and smooth line with body make the luminaire more elegant.

High Performance

Venus Series is energy-efficient with high performance, low maintenance, and long lifespan.

Unique Lighting Pattern

Polarized lighting distribution would avoid light being wasted into non-objected area, making Venus Series more energy-savings.

Multi-installation Ways

According to different applications, we provide two different installation methods: for billboard applications, we have mounting sleeve which is compatible for both round and square poles, while for sports field applications, we provide rotatable bracket marked with angles so that end user can easily and accurately adjust the angle.

Multiple Usage

Venus Series is not only suitable for billboard advertising applications, but also for sport field applications and area lighting applications.
